

# Metal Roof Edges: Design, Testing and Performance

## Technical Roundtable: Wednesday, November 9, 2016

The recent rash of hurricanes and other strong wind events has shown us how important proper roof edge design is in preventing roof and property damage. This presentation discusses the importance of roof edge and shows how to design and specify roof edge systems.

**Presented by:** Alan Jorzak, CSI, RCI  
Sr. Technical Sales Specialist  
Midwest Region, Versico Roofing Systems

### Learning Objectives:

- Discuss the importance of a perimeter roof edge.
- Understand the ANSI/SPRI/FM-4435 ES-1 standard.
- Review test protocols that are followed and how performance ratings are established.
- Identify how to specify certified edge metal and how to ensure it meets the IBC building code standards.

**Time:** 12:00pm – 1:00pm

**Location:** Pella Crafted Luxury, Merchandise Mart, 222 W Merchandise Mart Plaza, Suite 100  
(Wells Street Side Entrance)

**Continuing Education:** 1.0 AIA/CES LU

**Reservations:** Required by Nov. 4, 2016. Limited seating available on a first come basis. Complimentary to members and non-members. Non-members requesting to attend will be added to a waiting list until members are accommodated. Notification of available non-member spaces is sent two business days in advance. If your plans change and you cannot honor a reservation, please contact the Chicago chapter so we can offer your seat to someone on the waiting list.

**Email:** [csichicagochapter@gmail.com](mailto:csichicagochapter@gmail.com) or call 773-466-4147

**About CSI Technical Roundtables:** Technical roundtable topics are geared toward architects, specifiers, and others involved in the design and construction process as well as manufacturer representatives interested in the product category/technical issue. Small groups encourage dialog, and attendees are welcome to bring a snack or lunch.

**About the Speaker:** Alan Jorzak, CSI, RCI is a 2010 graduate of Argosy University where he received a Bachelor of Science in Business Administration. As a Technical Sales Specialist for Versico Roofing Systems, duties include providing technical and specification writing assistance, assist in bid / proposal preparation, product and system training and completing roof system evaluations to analyze an existing performance. Alan has nearly 20 years of experience within the Carlisle Construction Materials group, and has held other positions within the organization including Field Service Representative, Market Analyst and District Sales Manager. Versico manufactures a wide range of EPDM, PVC and TPO single-ply roofing systems, Polyisocyanurate and expanded polystyrene insulation boards and offers a full line of accessory products and warranties. Versico products meet or exceed all applicable ASTM standards and offer an industry-leading array of code approvals. Versico is a wholly owned subsidiary of Carlisle Construction Materials; a division of a publicly held company (NYSE: CSL).
