

Chicago Chapter Founded 1953

CHANGE ORDER

NEWS AND INFORMATION FOR
CSI CHICAGO MEMBERS
AUGUST 2012

Congratulations to Members Celebrating August Anniversaries

Continuous Years as a Member

51 Mr. Elliot H. Gage, FCSI, Member Emeritus, ; **27** Mr. Ralph Wiser, CSI, AIA, NCARB, *Anderson Mikos Architects, Ltd.*; **24** Mr. Lawrence P. Kearns, CSI, *Wheeler Kearns Architects*; **16** Mark R. Jones, CSI, CCS, AIA, *Harley Ellis Devereaux*; **13** Ms. Carol Nawracaj, CSI, CDT, *Goettsch Partners*; **12** Mr. John Birazzi, CSI, CDT, *Booth Hansen Associates*; **10** Mr. Brian Petty, CSI, CDT, LEED AP, *CONSULTANT SERVICES, LLC*; Mr. Gary Hayes, CSI, CCPR, *PROSOCO, Inc.*; **7** Mr. Floyd Dimmick, CSI, *Crown Polymers, LLC.*; Holly Hirsch, CSI, *Johns Manville*; **6** Martin J. Gilson, CSI, *RoofScreen Mfg.*; Brian G. Lutey, CSI, CDT, LEED AP, *USGBC, Ozinga*; Mr Leroy Danforth, Jr., CSI, EIT, *Brick Industry Association*; **5** Mr. Nicholas G. Schalmo, CSI, *Modernfold Chicago, Inc.*; Mr. Brian M. Watson, CSI, *Modernfold Chicago, Inc.*; **2** Mr. Thomas J. Sullivan, CSI, *Greeley and Hansen*; Mr. Roger Linde, CSI, *Greeley and Hansen*; Mr. Jason L. Conley, CSI, CDT, *Johns Manville*; Mr. Joseph Gorgan, CSI, *Greeley and Hansen*; **1** Mr. John P. Titus, RA, CSI, AIA, LEED AP; Mr David Bryan Archer, CSI, AIA, LEED AP, *PFB Architects*; Mr. Robert Charles Moretti, CSI, *Tremco Inc*

New Members Joining in August

Mr. Craig T. Bradley, CSI, *Cosella-Dorken*
Mr. Daniel R. Bulley, CSI, *Mechanical Contractors Association*
Mr Loi McLoughlin, CSI, *Icynene Corp.*
Mr Michael Janssens, CSI, B. Arch, MBA, *LaForce Inc.*

Welcome Back to the Chicago Chapter

Mr. Jerry DeCicco, CSI, *Joseph J. Duffy Co.*
Ms. Christine M. Uhlir, BA, MBA, CSI, CCPR, *Chicago Metallic Corporation*

CSI Chicago will receive two Awards at Construct / CSI National Convention

- Outstanding Chapter Commendation
- Communications Award for "Change Order" Electronic Newsletter

Email us at ChicagoCSI@aol.com if you will be attending the convention in Phoenix, Sept. 11-17, so you can connect with other chapter members.

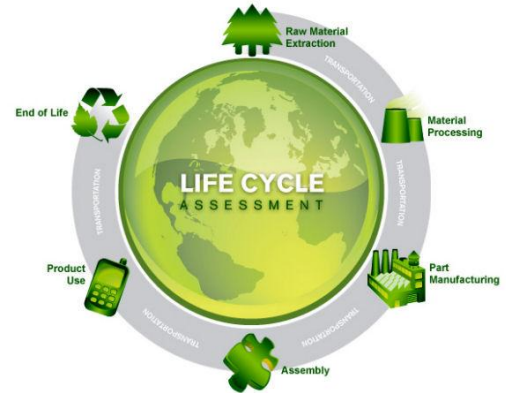

Chicago Chapter Meeting and Program August 21, 2012

“Product Life Cycle Assessment”

Join members and guests at the first chapter meeting of the season, to be held at USG Headquarters.

Learn the basics behind Life Cycle Assessments (LCA), Embodied Energy, and Environmental Product Declarations (EPD) to assist with future product selections and evaluations and improve the overall performance of your design solutions.

Discover what is involved with LCAs and EPDs using examples and some basic rules of thumb that will aid you in understanding what you will need to wade through the claims. Embodied energy of a product is an important metric when comparing material choices, but can it be misleading and should all materials be recycled? How is the impact of durability determined in a product's LCA? Rik Masters, CSI, AIA help you make intelligent decisions for your next project.

Continuing Education: 1.0 AIA LU/ HSW/SD

Time: 5:30 – 6:15 Registration, heavy appetizers, soft drinks
6:15 – 7:30 Program

Location: USG, 550 W Adams St, Chicago, IL 60661 [Map>>](#)

Cost: Members: Complimentary, Non members \$35

Register now! >

Members & guests: Please use this button to register. It saves administrative expense, helps accuracy of nametags, instantly confirms your reservation, adds event to your calendar and it's easy!

Questions? E: ChicagoCSI@aol.com P: 847-382-1924

Registration: Due by August 14. Attendee List must be submitted to USG Security. Bring a picture ID.
Meeting cancellation policy. Members or nonmembers who are no-shows or cancel after Thursday 5PM are responsible for \$35 fee if spot cannot be filled.

About the Presenter: Richard C. (Rik) Master, CSI, AIA, Sr. Manager, Building Science for the United States Gypsum Company

Rik is a Research Architect with over 40 years in the science of buildings. His responsibilities include architectural technical support, environmental research and documentation. Rik spent 17 years at the USG Research Center as a systems developer, developing many building systems. He developed and wrote USG *ACTION* an integrated technical information retrieval software package for the construction professional.

Rik is former Chair of AIA's Specifications and Building Technology PIA, AIA Educational Advisory Committee, AIA Initiative for Architectural Research Advisory Council, Founder & Former Chair of the Building Envelope Council of Chicago, the 2008 President of the AIA – Chicago, and currently a member of the USGBC's EQ Technical Advisory Group (TAG 2010-2013), CSI's Technical Committee (2010-2013), and AIA Illinois Board. Rik still lives in a 'Passive Design' home he designed and built in 1979 which remains 70% off-the-grid.

Attendee Registration Now Open!

October 4, 2012 Carpenter's Training Center, Elk Grove Village

This new partnership of CSI Chicago and USGBC Illinois Chapter will add an expanded array of educational & networking opportunities to CSI's annual product show and conference. AIA Chicago is participating as a communication sponsor.

With its new location at the Carpenter's Training Center in Elk Grove Village, attendees and exhibitors will experience a perfect venue combining expansive space and modern, comfortable seminar rooms.

Member rate for complete education package & networking event: \$85 through September 13
Member rate includes CSI Chicago and NI chapters, USGBC-IL chapter and AIA Chicago

Exhibit Hall Only Pass is complimentary (Registration required). Save time by pre-registering

For seminar descriptions and registration information, go to www.Greener-by-design.org

Attendee Benefits

- Up to 6.0 AIA LU's/HSW/SD and up to 7.0 GBCI credits (6.0 seminar credits and 1.0 credit for Exhibit Floor)
- Seminars that meet design professional's needs, with panelists from all project team perspectives
- 80 + exhibitors of innovative products and services to help reach sustainable project goals
- State-of-the-breakout rooms with the latest AV technology
- Continental breakfast, lunch, & cocktail & appetizer mixer at conclusion
- The professional atmosphere, with mock-ups and real-life equipment, will add to the technical experience and provide additional construction knowledge for design & construction professionals

Exhibitor Space is Over 2/3 Sold
Don't miss out -- reserve your space today.

Exhibitor Benefits

- Booths and Tabletops at economical fees
- Food and Beverage service & seating to increase traffic flow around exhibit areas
- Happy Hour Networking on the Exhibit Floor
- Free High-capacity Electrical Hookup & Wi-Fi
- Booths may be shipped or dropped off at location free of charge prior to event
- Flexibility to develop promotions and giveaways at exhibitor spaces
- Set up either "day-of" or afternoon proceeding.
- Free parking, assistance with set up

Booth Space 875 for members.
Tabletop Space \$550 for members
Non profit rate with available table spaces after Sept. 14 \$400

Visit the website for an exhibitor prospectus & registration form, floorplan, and seminar proposal form.

CSI Chicago Chapter Is 60!!

The chapter was founded in 1953—the second CSI local chapter to be chartered. With our fiscal year starting July 1, 2012 the celebration will begin. Pete Kovacik, chair of the 60th anniversary committee, is looking for volunteers to help make this event special. Contact Pete at pete@alpolic.com or 757-286-1000

Chapter Volunteers Needed

Graphics Assistant *Help create website ads for the chapter and sponsors. Assist with newsletter formatting & graphics. Development of a Chicago Chapter logo and/or 60th Anniversary Logo.*

Public Relations Chair & Committee Notify professional organizations of CSI Events. Submit information about CSI members and events to media.

Membership co-chair Welcome new members by email and/or phone. Invite new members to meetings. Assist chair in membership recognition and mentoring of new members. You will be supplied with all the verbage

CSI/USGBC Joint Green Products Show & Education Event. Jim Saxton, CSI, is the chair of this event, presented by Chicago Chapter CSI and USGC-IL Oct. 4, 2012 Volunteers are need for: (a) Day before set up(b) Volunteer coordination (c) Signs (d) On-site Registration (e) Seminar room coordinator (f) Day of and day before literature collating.

Let us know if you have an interest in these or other committees or start your own!

E: jesaxton@comcast.net

P: 630-290-6887

Membership (Emerging Professional Focus) With the new bylaw change creating a new membership classification for Members who have less than three years experience in the Industry, there is need for a chapter member to help develop programs and incentives to join CSI. Will work with membership committee.

Certification Reporter for Newsletter. Help needed with the newsletter section called "Are you smarter than a CDT?" A list of sample exam questions are available, and volunteer would be in charge of selecting 4 questions each month, putting in a Word Document, and submitting to chapter for publication each month

Your advertising here! Email ChicagoCSI@aol.com for rates.

Upcoming Events:

Tuesday, August 21, 2012

Product Life Cycle Assessment

5:30 PM – 8:00 USG Headquarter, 550 W Adams, Chicago

Wed., September 12, 2012

Technical Roundtable: Topic TBC

Noon – 1 PM Chicago location

Chapter Meeting: Passive Haus – Tom Bassett-Dilley

Certification News

Abbreviated Study Classes for the Fall CDT Exam Offered by Northern IL Chapter

August & September dates TBD (Mondays & one Saturday)

Ingersol Rand offices in Addison, IL

To be notified of final details and fees, contact:

Ken Moore, Certification Chair, NICS I usconsulting@earthlink.net

Chicago Chapter will Begin Study Class in Jan. 2013 for the Spring Certification Exams

Registration Now Open for Fall (October) CSI Certification Exams (CDT, CCA, CCPR, CCS)

CSI is the construction community's authority on communication and construction documentation. Through [CSI's Certification Program](#), you can develop a conceptual understanding of the entire construction process and concrete skills in:

- Construction documentation development and administration
- Specification writing and enforcement
- Product research and sourcing
- Communication with the design and contracting teams

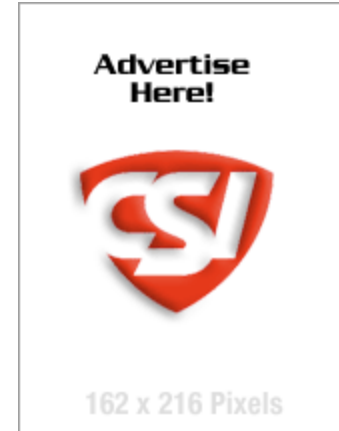

CSI Certification exams are given 2x per year, fall and spring.

Important Fall Exam Dates:

August 3	Early bird deadline for exam registration
August 31, 2012	Final registration deadline
October 1 - 27	Fall exam at Prometric Testing Sites

Important Spring Exam Dates

January 7, 2013	Chicago Chapter CDT Study Classes (11 weeks)
February 1, 2013	Early bird deadline exam registration
February 28, 2013	Final deadline for exam registration
Early April	Spring exam at Prometric Testing Sites

Construction Document Technologist (CDT) Certificate:

CSI's CDT program has provided foundation training in construction documentation for architects, contractors, contract administrators, specifiers, and manufacturers' representatives for decades. As the cornerstone of CSI's certification program, it's also prerequisite to CSI's advanced certification exams.

Getting your CDT means:

Understanding how a project unfolds from conception to delivery
Understanding the documentation involved

Certified Construction Contract Administrator (CCCA) Certification:

A CSI Certified Construction Contract Administrator (CCCA) develops, administers and enforces construction documentation.

Getting your CCCA means:

- Developing an in-depth understanding of quality assurance and quality control
- Having advanced skills in bidding and negotiating procedures
- Developing skills in construction observation and inspection
- Understanding Division 01, General and Supplemental Conditions, agreements, and all other documents related to the project
- Understanding enforcement and liability

Certified Construction Specifier (CCS) Certification:

A CSI Certified Construction Specifier (CCS) is a skilled product researcher who knows how to investigate and identify cost-effective, efficient solutions, and then communicate those solutions through the specifications.

Getting your CCS means:

- Developing an in-depth understanding of agreements, conditions of the contract, Division 01, and their relationships to specifications
- Having advanced skills in specification development, enabling you to use spec-writing software more effectively
- Understanding how to research and source products

Certified Construction Product Representative (CCPR) Certification:

A Certified Construction Product Representative (CCPR) is a valued resource called upon by the design team again and again.

Getting your CCPR means:

- Making sales calls, presentations, construction meetings, and product shows more effective
- Understanding roles and responsibilities of everyone involved in the project, and how and when to communicate with them
- Understanding all phases of the construction documentation, and your role in each phase
- Speaking the same language as the design and contractor teams

Questions? Contact CSI Member Services at csi@csinet.org or 800-689-2900.

Contributed Article.....

Parts 1, 2, and 3 of this Master Builder series are posted [here>>](#)

What happened to the architect?

By Sheldon Wolfe, RA, FCSI, CCS, CCCA, CSC

We started this series of articles with a question - *What happened to the master builder?* - and went on to talk about how the architect no longer is the master builder of old, for a couple of reasons. First, the continual increase in construction products, methods, and computer technology makes it virtually impossible for any one person to know all there is to know about construction, or even a significant part of it, and, more important, there was a conscious effort to divorce architects from hands-on experience and technical knowledge. Finally, as we will see, architects themselves have, through contract documents, reduced their importance, at the same time increasing the importance of the contractor.

Today, no one expects a single person to know all about construction today, but a semblance of a master builder can be found in the collective knowledge of an architectural firm and its consultants. However, because of the lasting impact of the design-bid-build process, there remains a schism between the design and construction activities of architecture.

Which, of course, means that an *architect*, in the original meaning of the word, *no longer exists*. In case you forgot from the earlier article, the word comes from the Greek *arkhitekton*, meaning "master builder, director of works," from *arkhi*- "chief" plus *tekton* "builder, carpenter". Notice that *design* is not part of the definition, though it can be inferred from the meaning. In that context, it's easier to see the architect-master builder being a contractor who knows how to design, than a designer who knows how to build. Despite the derivation of the word, we now think of an architect as one who designs buildings, but is not directly involved in construction. In fact, by today's standards, an architect is *expected* to know only about design.

It's been that way for a long time, so what's the big deal? If you don't care who is in charge, it doesn't make much difference, but architects seem to care. Let's look at some of the ways buildings get built, and the role of the architect in each.

The simplest case is an owner with its own in-house design and construction departments. The owner decides what is needed, designs it, and builds it. The designers and builders work for the owner, and while there may be some interdepartmental differences of opinion, they do what they're told. End of story. The designers and the builders are approximately equal in status, though the owner - as is always the case - may care more about cost than aesthetics, and the functional design is usually of paramount importance.

The design-build process, a rough equivalent of how things were done by the Master Builder of old, is similar. The owner hires a single entity, which provides both design and construction services, and answers to the owner for everything. Again, design and construction work together toward a common goal. Again, at least in theory, design and construction have similar status. In practice, the leading entity - usually a contractor - has more clout.

With design-bid-build, the owner hires one or more firms to design the building, and one or more contractors to build it. The owner is still the boss, but historically relies on the architect to more or less run the project. Many owners have no choice, as they don't have knowledgeable staff capable of managing the entire process. Because of this relationship, the design professional appears to be the most important entity, and the owner expects the contractor to build what's in the documents. At least, that's the way it has worked until recently; contractors now often have much greater influence than in the past. In many cases, contractors drive decisions, and the architect makes changes to accommodate the contractor's recommendations to the owner.

One of the strange things about design-bid-build is that we accept it as normal, as the way things should be done. In fact, it is a recent innovation, supplanting hundreds or thousands of years of construction led by the Master Builder. Some will argue it is superior to other delivery methods, and at one time, I agreed. I now believe that objections to design-build - most of which are based on the assumption that the design team knows more about what's going on than the contractor, and that the design team is more concerned about the owner - can be addressed in the same way owners like to choose architects and contractors, i.e., by careful selection, based on past performance. Choosing a design-builder by low bid makes no more sense than selecting either an architect or a contractor solely on the basis of cost.

For whatever reason, design-bid-build is the way we've been doing things in the US for a long time, and it seems most architects believe things are just fine the way they are, with an architect-led design team firmly in charge, and the construction team faithfully doing what they're told. However, unless you've been sleeping, you may have noticed that the contractor's role and importance have been increasing. I've been seeing more negotiated contracts, more construction management projects, and more design-build projects with our private sector clients; it seems only government agencies are holding fast to design-bid-build, and even they are looking at other options.

How did we get to this point? Next time, we'll look at important changes in contract documents that have affected the relative importance of architect and contractor.

© 2012, Sheldon Wolfe, RA, FCSI, CCS, CCCA, CSC

Join CSI Chicago on Facebook, Twitter and Linked In

Make sure to join the groups for continuous updates on CSI activities. Comments, suggestions, and participation in this endeavor can be directed to sconwell@imiweb.org

Facebook Just log into your Facebook account and search for "CSI Chicago." You will find a fan page and a group page. Please like the fan page by clicking on the thumbs-up icon. By doing so, CSI Chicago's posts will appear on your wall, so you will be among the first to know when there is a new event or program. If you don't want CSI's events to be posted on your Facebook wall, you can still become a fan, then choose to hide our posts from your wall later. Because your status with CSI Chicago is "fan" (which is different than "friend"), CSI Chicago will not have access to any of your personal information or pictures you've posted unless you've made them publicly available in your personal privacy settings.

Twitter To follow us, just log into your Twitter account, click "Who to Follow," and in the search box type "@ChicagoCSI." If you follow us, we will follow you back. Don't be surprised if we retweet some of your posts to your fellow members.

LinkedIn Send us an invitation to connect from your LinkedIn account. The best way to do this is in the "Search People" search box, type "CSI Chicago." When you find us, click "add to network." You may be asked how you know CSI Chicago, which only takes a moment to check a few boxes; then send the invitation, and we'll be connected.

Market Your Company With the CSI Chicago Chapter and Reap the Benefits

Advertise in this PDF newsletter for as low as \$450 for the entire year
(12x rate for a business card)

- ✓ CSI Members are loyal and dedicated to our marketing sponsors
- ✓ There is something for every budget, and every contribution helps support the education mission of the the chapter. This newsletter accepts advertising in a variety of sizes with a year long price that is extremely economical. (Check out the business card ads in this issue)
- ✓ This electronic newsletter is sent to a list of 1300 which includes members and additional industry professionals who have subscribed.
- ✓ Website ads are also available and are viewed by thousands who click on our website.
- ✓ By advertising on the website, the newsletter, or sponsoring events, you are supporting the chapter and its mission to provide continuing education, increased knowledge, and networking opportunities with all members of the project team.
- ✓ There are numerous ways to become involved, increase your brand awareness and support the chapter's education goals. Whether an ad on the website, in the newsletter, or sponsorship of an event, certification class or golf outing, your help is welcome at any level. Based on your monetary commitments, there are additional benefits for partners. For a list of opportunities, contact chicagocsi@aol.com.

Institute Updates

CONSTRUCT
hanley wood

Exhibits: September 12-14, 2012
Education: September 11-14, 2012
Phoenix Convention Center | South Bldg | Phoenix, AZ

CONSTRUCT2012 and the CSI Annual Convention September 11-14, Phoenix, AZ

Complimentary Exhibit Hall Admission and Discounted Education Packages only Through August 15th.

CONSTRUCT and the CSI Annual Convention is your most cost-effective strategy for combining educational opportunities with practical, real-world, product and service solutions for your business success. This event is dedicated to the institutional, industrial and commercial building industry. If you design, build, specify, engineer, renovate or operate in the built environment, this is your event. Find hundreds of exhibitors with the newest trends and practices on the show floor and, with non-conflicting hours, attend the relevant accredited courses. The education program sessions, taught by experts, offer AIA/LUs, HSWs, SDs. Unparalleled networking opportunities include the Welcome Reception, the CSI Gala and social events.

Plan now to attend this power-packed event that has been designed for you, the architect, specifier, engineer and the commercial building team. CONSTRUCT is the only dedicated national event specifically designed to provide the commercial building team real-world, practical product and education solutions. HELP US STAY IN TOUCH WITH YOU!!!

HOW TO UPDATE YOUR ADDRESS ONLINE AT WWW.CSINET.ORG

1. Go to CSINet (www.csinet.org) and log in through the box on the right of the home page. You can also log in on any other page; look for the box on the left.

To log in, you'll need your CSINet username and password. If you are visiting for the first time, you can create a user name or must log in with:

Username: firstname@lastname (ie John@Smith)

Password: Your CSI Member ID number

Your Member ID can be found on your CSI membership card or above your name on the Construction Specifier mailing label.

If you have already logged in to CSINet, use the Username and Password you've chosen. If you've forgotten them, just click "Forget your pass word?" and follow

the directions, or contact CSI Member Services at csi@csinet.org or (800) 689-2900.

2. Click "Modify your profile" in the Member Box (where the Login box used to be).

3. Click "Update your contact info." Your information will appear at the bottom of the page.

4. Click "Business" or "Home," depending on what information you want to modify.

5. Make changes in the boxes that appear on the screen, then click "Submit."

You can also contact CSI Member Services at csi@csinet.org or (800) 689-2900 to update your contact information, or if you have any other questions or problems.
